## Stichting Sociaal Fonds OCW

Funds for scientific and higher education, research and cultural institutions.

In the case that you need financial assistance, would you like to be helped in the same way as you are **NOW** helping another?

**With a minimum contribution of 2 Euro's per month** (more is always welcome) you can become a member of the Funds.

The Funds has existed for approximately 60 years. It was established with the desire to assist follow members who, without any fault of their own, have landed in financial and therefore social difficulties.

The Funds provide **interest free** loans and sometimes endowments. This sets us apart from other debt-relief assistance organizations.

**Don't think that this could never happen to you, because you never know what could happen in the future.**
